

NOT SO SILENT NIGHT

The soldiers at Fort Purgatory had been celebrating the upcoming Christmas day. Their bellies were full of Corporal Nasty's famous cobbler and hot buttered rum and they were getting ready for a good nights sleep and dreams of sugar plums and such. But just as they were about to turn in a call came from Private Bradford from the guard tower "Someone's coming! I think it's SANTA." But it was not Saint Nick but a band of renegades that were trying to sneak up on the troops and do them in. Swift action was taken and the holiday was saved as the attack was repelled. Later that night Santa did make it safely and on time.

Ammo / Staging: Two pistols loaded 5 rounds each, holstered. Rifle loaded with 10 rounds staged on table to the right. Shotgun staged in guard tower with 4+ shells on person. Start standing at left window in left wall looking down range and say your line **"Is that SANTA?"**. ATB retrieve rifle and engage rifle targets thru either window in left wall with a double tap sweep from the left. Restage rifle in rack in fort. Move to short wall and Draw 1st pistol and engage pistol targets in a double tap sweep from the left, holster and continue with 2nd pistol, holster and move to the guard tower, retrieve shotgun and engage shotgun targets from left to right until down.
